

Welcome Back!

We're VERY excited to be able to have our guests back. As we all know though, dining out as we once knew it has changed. As such, we have a few new house rules that you'll need to follow in order to keep everyone safe and having a great time.

Phase II HOUSE RULES

- **Guests are required to wear masks inside the restaurant at all times when not seated with their party. This includes when going to or from the restroom.**
- **Guests experiencing negative health symptoms including fever, body aches &/or loss of smell are not permitted on the premises.**
- **Social distancing guidelines are expected to be respected all times.**
- **All dining tables have been strategically placed 6' apart to ensure our guests' safety. Please do not move the tables in any direction.**
- **Parties seated together cannot exceed 50 guests.**
- **Seating is very limited. As such, we ask that you wrap up your experience with us within 90 minutes so that we can prepare for the space for the next table.**
- **Paper menus are disposable, a digital version is available. Single service utensils & condiments are available by request.**
- **Our staff are required to wear masks at all times. Our team also participates in temperature checks and symptom checks prior to every shift to ensure everyone's safety.**
- **Our employees are required to follow enhanced cleaning guidelines, including washing their hands frequently.**

Please be kind & respectful to one another at all times!
