

Setting up Your New Router, Printer, and Tablet (TP-Link Router, Star Printer)

Everything has been pre-configured to work together seamlessly. You just need to plug the equipment in! Let's get started with the router:

Router

1. Connect the power cord to your router.

2. Plug the power cord into a standard 120-volt electrical outlet. Once plugged in, press the power button on the back.

3. Using the supplied cable, connect one end to a LAN port on your existing router and the other end to the Blue port (WAN) on your new TP-Link router. (Unit must be connected directly to your router. It might not work if connected to a Network Switch or Access Point)

4. Check the lights on the front of the router. After a couple of minutes, the first and the fourth should be lit. The network name (SSID) and password are printed on a sticker on the top of your router.

Printer

5. Connect the power cord to the back of your printer:

6. Plug the power cord into a standard 120-volt electrical outlet. Once plugged in, press the power button on the side of the printer:

7. There is a small roll of thermal paper currently in your printer. When that runs out, we have included a full roll of thermal paper to help get you started. Additional rolls can be purchased at Amazon, Staples, or any office supply store. The printer takes a standard 3-1/8 Inch x 230 Foot roll.

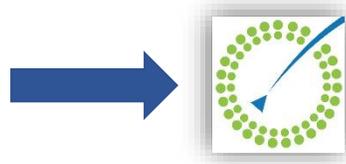

If you have any problems or questions when setting up your printer package, please don't hesitate to call us at (631)271-3470 ext. 502. Our representatives are here to help!

Tablet – (Ordereze Supplied)

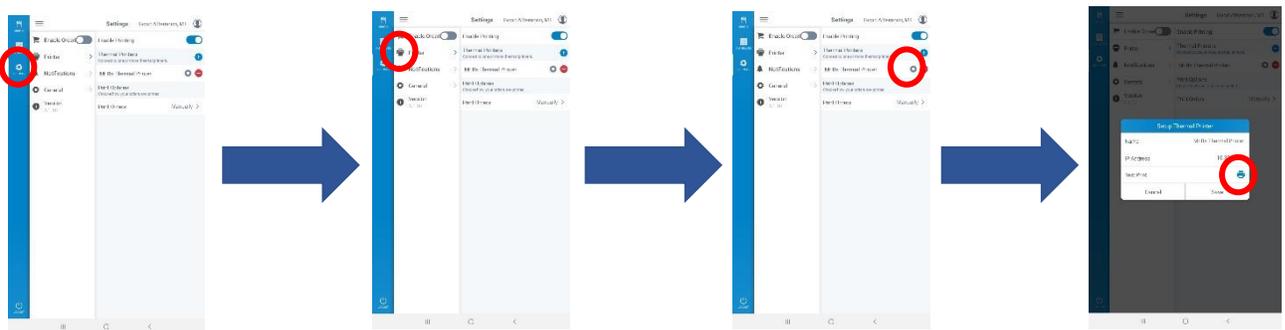

(If you are using your own tablet, see next page for instructions)

8. Power on the tablet (top button, right side). Look for the Ordereze app and click on it:

9. Ensure the tablet is connected to the **“Ordereze Printer Wifi”** network

10. Click on: Settings →Printer →Settings Icon Next to Name of Printer (TSP143IIIW) →Test Print. Test Print page should print:

11. Once the Test Print Page prints, click save and contact an Ordereze representative at (631)271-3470 ext. 502 so that we can:

- a. confirm a successful set-up of your equipment by running a test order through the system
- b. give you a quick walk-thru of the features
- c. answer any questions you might have

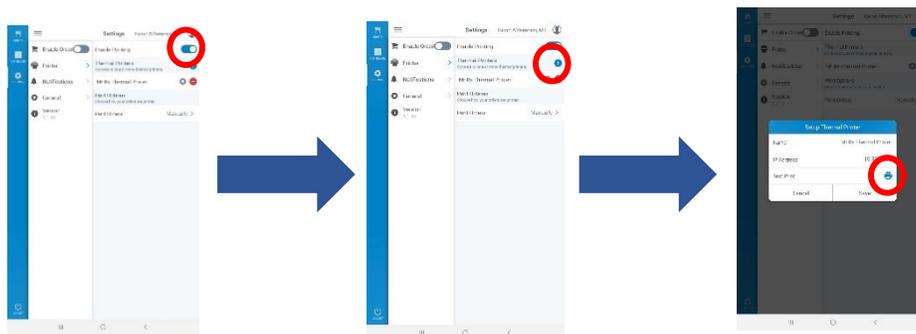

*** We recommend that you always leave your tablet connected to a power source**

If you have any problems or questions when setting up your printer package, please don't hesitate to call us at (631)271-3470 ext. 502. Our representatives are here to help!

Tablet – (Your Own)

1. Connect your tablet to the **“Ordereze Printer Wifi”** network. (Password is printed on top of router)
2. Open the App Store (If iPad), Play Store (Android), and download the Ordereze app (this may take a few minutes)
3. While the Ordereze app is loading, login into your dashboard and click on the “QR Code” button on your Online Ordering Pro widget
4. Open the Ordereze App and scan the QR Code using the scanner
5. Set the PIN
6. Set the Unattended call alerts and tap the toggle for “Enable Printer”
7. Click the blue plus “+” icon under Thermal Printers (it will search for your printer) and click on “TSP143IIIW” when it appears:
 - a. Tap on the Test Print icon to confirm the printer works

8. Once the Test Print Page prints, click “save” and contact an Ordereze representative at (631)271-3470 ext. 502 so that we can:
 - a. confirm a successful set-up of your equipment by running a test order through the system
 - b. give you a quick walk-thru of the features
 - c. answer any questions you might have
